# Facts and Figures 2019

The ICRC has been present in Sudan since 1978, helping people affected by the conflict in Darfur, Blue Nile and South Kordofan, and promoting International Humanitarian Law (IHL). Our work today, independently or in cooperation with the Sudanese Red Crescent Society (SRCS) includes supporting hospitals and health facilities with equipment and supplies, working with local water authorities on improving people's access to clean water, and supporting the authorities who provide rehabilitation services for people with disabilities. We provide displaced people in conflict-affected areas with emergency assistance, distribute seeds and tools to farmers, and vaccinate pastoralists' livestock against disease. We are helping families separated by conflict or displacement keep in touch, and have facilitated the release of detainees upon request of the parties. We have given former detainees clothes, and paid for their transport to go home.
