

## Acceptance Quality Limit (AQL)

TSLOG-345702108-  
25736  
REV. 1.10  
16/12/2021

Item name : Hygienic Parcel

### Definitions:

**Critical nonconformity** : Any discrepancy which might harm a user or makes it impossible to use the product properly is considered to be critical. Lots with Critical discrepancies is subject to lot refusal.

**Major nonconformity** : Any discrepancy which makes the use of the product less efficient than expected is considered to be major. Lot with Major discrepancies can be accepted.

**Minor nonconformity** : Any discrepancy which does not have an influence on the performance of the product is considered to be minor. Lot with Minor discrepancies can be accepted.

**Nonconformity**: Non-fulfilment of a specified characteristic requirement.

**Nonconforming item**: Item with one or more nonconformities.

**Lot**: Definite amount of some product, material or service, collected together

**Sample**: Set of one or more items taken from a lot and intended to provide information on the lot

### Non-Conformities and Corrective Action:

#### Critical: (AQL 0)

Determination of lot acceptability: to be decided by ICRC' Quality and buyers.

Continual improvement: Improvement plan to be proposed by supplier and validated by the ICRC to eliminate the root cause of occurrence and non detection for the faced non-conformity (ies) for the upcoming purchases. Actions to be implemented by supplier within a defined time frame by default 3 months.

Penalty:

10% penalty of the value of the total PO per each critical non-conformity to be charged to the supplier .

#### Major: (AQL 2.5)

Determination of lot acceptability: to be decided by ICRC' Quality and buyers.

Continual improvement: Improvement plan to be proposed by supplier and validated by the ICRC to eliminate the root cause of occurrence and non detection for the faced non-conformity (ies) for the upcoming purchases. Actions to be implemented by supplier within a defined time frame by default 3 months.

Penalty:

0.5% penalty of the value of the total PO per each major non-conformity to be charged to the supplier.

#### Minor: (AQL 4.0)

Determination of lot acceptability: to be decided by ICRC' Quality and buyers.

Continual improvement: Improvement plan to be proposed by supplier and validated by the ICRC to eliminate the root cause of occurrence and non detection for the faced non-conformity (ies) for the upcoming purchases. Actions to be implemented by supplier within a defined time frame by default 3 months.

Penalty:

0.25% penalty of the value of the total PO per each minor non-conformity to be charged to the supplier.

### Additional Information:

The Method of testing is drawn from ISO-2859-1 International Standards (table1: Sample size code letters, and table 2-A: Single sampling plans for normal inspection). The samples will be taken randomly by the buyer from the delivered items and then inspected.

The buyer can decide either to inspect the lot at ICRC QC laboratory or to use an inspection company for analysis, or both. Transport to laboratory and analysis cost for lab testing are at expense of ICRC.

The seller can contest the results of the Quality Control done at ICRC warehouses by requesting a lab testing. In this case transport to laboratory and analysis cost for lab testing are at expense of the seller.

In case the ICRC decides to hold the penalties during the improvement plan, if the faced nonconformity(ies) persist ; penalty for each non-conformity faced during the improvement plan will be applied.

ICRC

### Secondary Packaging Specifications

Nonconformities classification: Critical: C; Major: M; Minor: m

Items	Characteristics	Nonconformities classification	QC type	AQL	QC Inspection at ICRC warehouses and lab testing
<b>Secondary Packaging Specifications</b>	Marking on the loaded pallets	<b>m</b>	Ok/Nok	4.0	Marking expected by default : Item name , Manufacturer name, PO number, Country of origin, Net weight, Gross weight, serial number, dimensions, Quantity of cartons / Pallet. One sticker per side of pallet.wrapping shall either carry all the important information or not hide the label on the pallets. Or as per specific approved Marking.
	Loaded pallet dimension	<b>M</b>	Ok/Nok	2.5	Pallets shouldn't exceed 1.2m height and one stacking should be possible without damaging the goods. Palletization dimension allowed : 800mm x 1200mm (Euro pallet) or 1200mm x 1000mm (parcels not exceeding the size of the pallet).
	Loaded pallet general quality	<b>m</b>	Ok/Nok	4.0	The package must be sized in order to protect the goods, avoiding empty spaces between parcel on pallet. Only wooden pallets is allowed. Pallets should be treated against insects & moulds. Pallets should be shrink wrapped minimum 3 times, fixing the goods to the pallet itself. Add at least two plastic straps top and down to reinforce the load. It must be possible to handle pallets with a forklift at least 5 times without damage. Ensure reinforcement on the hedges with extra layers of carton.
	Marking on the Parcel	<b>m</b>	Ok/Nok	4.0	Marking + Logos will be provided by the ICRC, by email in order to comply with the standards. Final marking approved by the ICRC because of specific requirements (e.g. in English + Local language as required in the PO). No brand name, neither internet address, neither any other commercial marking on cartons. Printing will be in two colours clearly readable (red and black). The following should be printed on external carton boxes : PO number, Content list & Quantity of item. Expiry date: Equal to shortest expiry date of the content. Seller's batch number. Gross Weight Humanitarian Aid-Not for sale Country of origin
	Cardboard Material	<b>m</b>	Ok/Nok	4.0	Corrugated type, BC Flute, Minimum 5 plys (recycled allowed)
	Cardboard Material GSM	<b>m</b>	Measurement	4.0	635 g/m <sup>2</sup> ± 4% (using GSM cutter when measuring)
	Parcel sealing	<b>m</b>	Ok/Nok	4.0	Firmly closed with Strong large adhesive tape Minimum 45 mm. Sealing in both sides Up and Down . No open parcel
	Parcel general quality	<b>M</b>	Ok/Nok	2.5	All items should be securely packed together in one strong parcel, preventing any damage or goods dispersion. The packaging should be strong to protect the product from Contamination, Direct sunlight. No holes, no tears, not deformed. Avoid any unnecessary sub packaging, especially the single use plastic foils or bags. When sub packaging is necessary, prefer 100% degradable materials such as paper or cardboard or starch-based plastics.
	Parcel fit for contents	<b>M</b>	Ok/Nok	2.5	Quantity of the item should be maintained inside the parcel in a good shape and condition. Parcel should be fit for contents, no empty spaces and not allowing the easy movement of its content.

Item name : Washing powder

Nonconformities classification: Critical: C; Major: M; Minor: m

Item Specifications	Parameter	Classification	Measurement	Value	Acceptance Criteria
Item Specifications	Fragrance/Perfume	M	Measurement	2.5	Perfume, Up to 1% Good and Acceptable Fragrance, without any disagreeable odours.
	Hardness Removal	M	Measurement	2.5	Min 650 PPM.
	Insoluble content in water	M	Measurement	2.5	max 2%, and if Zeolite is used: max 7%
	Moisture	M	Measurement	2.5	max 10 %.
	pH	C	Measurement	0	9< pH<11
	Silicon dioxide SiO <sub>2</sub>	M	Measurement	2.5	minimum 2% maximum 12%.
	Total toxic heavy metals	C	Measurement	0	max 0.003%.
	Shelf life	M	Ok/Nok	2.5	Minimum 3 years from date of production. Upon delivery, shelf life should be minimum 80% of total shelf life. No changes in product after stored it a long time (colour, odour, shape ...).
	Skin Irritation	C	Ok/Nok	0	The use of washing powder does not cause skin irritation and / or skin dryness.
Microbiological	Total Aerobic Mesophilic Microorganisms (Bacteria plus yeast and mould)	C	Measurement	0	≤ 1000 CFU per g or ml (ISO-17516-2014)
	Escherichia coli, Pseudomonas aeruginosa, Staphylococcus aureus and Candida albicans	C	Measurement	0	Absence in 1 g or 1 ml (ISO-17516-2014)
Documents Required	Certificate of Analysis	C	Ok/Nok	0	Valid certificate of analysis for each lot established by a third party independent and accredited laboratory showing compliance with the specified chemical composition, biological analysis and Fit For human utilization.
	Material Safety Data Sheet	C	Ok/Nok	0	Material Safety Data Sheet for the product should be provided, including safety, Handling, Storage and Transportation statements.

Item name : Sanitary pads

Nonconformities classification: Critical: C; Major: M; Minor: m

Items	Characteristics	Nonconformities classification	QC type	AQL	QC Inspection at ICRC warehouses and lab testing
Item packaging	Packing Material	M	Ok/Nook	2.5	The sanitary napkins should be packed in strong plastic packing, with invisible perforation in order to prevent package from bursting, sealed so as to protect them from contamination during storage and transportation.
	Package general quality	M	Ok/Nook	2.5	Strong, suitable for the storage of the item without altering its specifications. Closed and sealed, protect it from pollution. No holes tears.
	Bag Sealing	M	Ok/Nook	2.5	The bag and individual packaging close and should guarantee no holes will occur during the handling/ transportation of the item.
	Brand name	m	Ok/Nook	4.0	Same as Reference sample selected.
	Origin / manufacturer	m	Ok/Nook	4.0	Same as Reference sample selected.
	Marking on the bag	M	Ok/Nook	2.5	Clear readable marking. Language: English + Local language as required in the PO. Marking expected: Product Name, Trade name or trademark, Manufacturer or distributor's name, Country of origin, Instrucions to use ,Batch No., Chemical composition, Net volume / weight, Production date, Expiry date.
	Quantity	M	Ok/Nook	2.5	40 pads (4 packs of 10 pcs or 2 packs of 20).
Item Specifications	General Quality	M	Ok/Nook	2.5	The quality must be homogeneous and no foreign matter shall be found over the whole batch. The sanitary pad when visually examined must be free from any defects which can affect either its appearance or utility: stains, dirt, soil particles or hard lumps are not allowed. Difference in colour and size or smell among different samples are not allowed. No difference in colour and size / or smell among different samples.
	pH	C	Measurement	0	5.5<pH< 8.5
	Net weight	M	Measurement	2.5	8 gr ± 2 gr.
	Colour	M	Ok/Nook	2.5	White colour.
	Odour	M	Ok/Nook	2.5	The sanitary Pad shall have no unpleasant odour either in dry state immediately after sampling from the packages or after wetting the sample with distilled water.
	Length	M	Measurement	2.5	220 - 250 mm.
	Width without wings	M	Measurement	2.5	100 mm ± 10 mm.
	Width, with wing	M	Measurement	2.5	155 mm ± 10 mm.

Item name : Body Soap

Nonconformities classification: Critical: C; Major: M; Minor: m

<b>Item Specifications</b>	Glycerol	<b>M</b>	Measurement	2.5	Minimum 4.5%.
	NaOH content	<b>M</b>	Measurement	2.5	Maximum 0.3%.
	Fatty acid	<b>M</b>	Measurement	2.5	Minimum 70 %.
	Salt content expressed as NaCl	<b>M</b>	Measurement	2.5	Maximum 0.5 %.
	Shelf life	<b>M</b>	Ok/Nok	2.5	Minimum 3 years from date of production. Upon delivery, shelf life should be minimum 80% of total shelf life. No changes in product after stored it a long time (colour, odour, shape ...).
	Skin Dryness	<b>C</b>	Measurement	0	The use of soap does not cause skin irritation and / or skin dryness.
<b>Microbiological</b>	Total Aerobic Mesophilic Microorganisms (Bacteria plus yeast and mould)	<b>C</b>	Measurement	0	≤ 1000 CFU per g or ml (ISO-17516-2014)
	Escherichia coli, Pseudomonas aeruginosa, Staphylococcus aureus and Candida albicans	<b>C</b>	Measurement	0	Absence in 1 g or 1 ml (ISO-17516-2014)
<b>Documents Required</b>	Certificate of Analysis	<b>C</b>	Ok/Nok	0	Valid certificate of analysis for each lot established by a third party independent and accredited laboratory showing compliance with the specified chemical composition, biological analysis and Fit For human utilization.

Item name : Razor

Nonconformities classification: Critical: C; Major: M; Minor: m

Items	Characteristics	Nonconformities classification	QC type	AQL	QC Inspection at ICRC warehouses and lab testing
Item packaging	Packing Material	M	Ok/Nok	2.5	PP bag.
	Package general quality	M	Ok/Nok	2.5	Strong, suitable for the storage of the item without altering its specifications. Closed and thermally sealed, protect the item from contamination. No holes tears.
	Brand name	m	Ok/Nok	4.0	Same as Reference sample selected.
	Origin / manufacturer	m	Ok/Nok	4.0	Same as Reference sample selected.
	Marking on the bag	m	Ok/Nok	4.0	Clear readable marking. Language: English + Local language as required in the PO. Marking expected: Product Name, Trade name or trademark, Manufacturer or distributor's name, Country of origin, Batch No., Quantity per pack.
	Quantity	m	Ok/Nok	4.0	10 razors (1 pack of 10 pcs or 2 packs of 5).
Item Specifications	General Quality	M	Ok/Nok	2.5	No sharp edges, no impurities, homogeneous colour .The razor when visually examined shall be free from defects.
	Type	M	Measurement	2.5	Manual Blade Razor with Lubrication strip.
	Blade	M	Measurement	2.5	The razor consists of a specially-designed blade Twin blade razor, mounted in a plastic casing attached to a handle. Each razor head protected with plastic safety cover.
	Blade composition	C	Measurement	0	Stainless steel (no trace of corrosion allowed).
	Blade thickness	M	Measurement	2.5	0.8 mm ± 1%.
	Lubricating strip	M	Ok/Nok	2.5	With aloe vera and or vitamin E
	Handle length	M	Measurement	2.5	85 mm ± 10 mm.
	Total length	M	Measurement	2.5	100 mm ± 10 mm.
	Head width	M	Measurement	2.5	40 mm ± 5 mm.
	Skin Irritation	C	Ok/Nok	0	The Razor should not contain any dangerous substances. The use of Razor does not cause skin irritation.

Item name : Shaving cream

Nonconformities classification: Critical: C; Major: M; Minor: m

Items	Characteristics	Nonconformities classification	QC type	AQL	QC Inspection at ICRC warehouses and lab testing
Item packaging	Packing Material	M	Ok/Nok	2.5	Supplied in Plastic OR metal tube, suitable for the storage and handling of this item, protecting the product from contamination,
	Package general quality	M	Ok/Nok	2.5	Strong, suitable for the storage of the item without altering its specifications. No holes, no damages.
	Tube Sealing	M	Ok/Nok	2.5	Tamper-proof sealed aluminium tube with screw cap.
	Brand name	m	Ok/Nok	4.0	Same as Reference sample selected.
	Origin / manufacturer	m	Ok/Nok	4.0	Same as Reference sample selected.
	Marking on the Tube	m	Ok/Nok	4.0	Clear readable marking. Language: English + Local language as required in the PO. Marking expected: Product Name, Trade name or trademark, Manufacturer or distributor's name, Country of origin, Instructions to use, cautionary instructions ( if any), Batch No., Chemical composition, Net volume / weight, Production date, Expiry date.
Item Specifications	General Quality	M	Ok/Nok	2.5	Cream , no difference in colour and appearance / or smell among different samples. Homogeneous quality no foreign matters.
	Type	M	Ok/Nok	2.5	Shaving cream for all skin types.
	Net weight / Net Volume	M	Measurement	2.5	Minimum 70 g (1 Tube).
	Colour	M	Ok/Nok	2.5	Pearl white.
	Ash content for water insoluble matter	M	Measurement	2.5	maximum 0.5 %.
	Ash content for ethanol insoluble matter	C	Measurement	0	maximum 2 %.
	Content for ethanol ( C <sub>2</sub> H <sub>6</sub> O )	C	Measurement	0	maximum 0.2 %.
