4X4 HEAVY Cargo body tarpaulin

6X6 HEAVY Cargo body tarpaulin

8X8 HEAVY Cargo body tarpaulin

Engine:

- Maximum power: between 280 kW and 330 kW
- 6 cylinders diesel in line
- Emission level EEC EURO III to EEC EURO VI
- Cooling fluid

Transmission:

- Gearbox
 - o Automatize gearbox and clutch with automatic or semi-automatic mode.
 - o Between 12 and 16 speed forwards.
 - o Heavy duty gearbox reinforcement for extreme condition.
 - o Oil/water gearbox oil cooler.
- o Transfer case
 - o Separate from the gearbox.
 - o Ratio: LS 1 / 1.536 1 / HS 0.890.
 - o Permanent transfer case:
 - o Torque distribution without differential lock engaged 30 / 70, with differential lock engaged 50 / 50.
 - o Without power take-off on transfer case.

Engine Brake:

o Combination of exhaust brake and valve compression brake coupled with service brake.

Steering:

- o Steering assistance by hydraulic pump Steering
- o Left or Right-hand drive

Front axles:

- Axle pivots with grease nipples
- Front load capacity: 9 t

Rear axles:

• Double reduction Integrated differential lock

- Rear load capacity: 32 t (6x6&8x8)
- Rear load capacity: 13 t (4x4)

TIRES AND WHEELS:

- Single mount 395/85 R20 (Premium brand)
- Steel wheels
- Front wheel covers
- Spare wheel in temporary fixing

Brakes:

- Service brake:
 - o Air compressor 900 I/min, twin cylinder
 - o Brake system with two independent circuits
 - o Brake drums Dust protection on rear brake
 - o Electronic management of air production
 - o Drying cartridge optimised by preventive maintenance
 - o Silencer on pneumatic
 - o 2-line trailer braking device with ISO heads, automatic (red), manual (yellow)
 - o Trailer braking device on rear crossbar
 - o Rear brake cylinders in high position

• EBS:

- o Anti-lock Braking System (ABS)
- o Coupling of retarders and service brakes
- o Differential engagement management (if equipped) at speed <10 km/h (4x2)
- Hill Start Assist.
- o Brake Performance Alert.
- o Emergency Brake Assist.
- o Emergency Stop Light.

• Parking brake:

- o Electronic Parking Brake automatic
- o Parking brake with spring-loaded cylinders
- o Reinforced parking brake

Adjustments:

o Automatic lining clearance adjustment

Emergency brake:

o Provided by the independence of the circuits of the main device

Cabin:

- External
 - Ø Night & Day cab
 - Ø Electro-galvanised sheet metal cab, cataphoretically treated
 - Ø Body color: white

- Ø Black front finish
- Ø 4-point air suspension cabin
- Ø 2 side lockers, 1 of which is accessible from inside the cab
- Ø 2 remote-controlled heated mirrors
- Ø 2 wide-angle mirrors
- Ø Docking mirror Mirrors for overall length of vehicle 2.550 m
- Ø Folding rear view mirror
- Ø Pneumatic warning system
- Ø Front fender flaps
- Ø Basic color accessories
- Ø Sun visor
- Ø Laminated tinted windscreen
- Ø Without rear window

Internal

- Ø Performance finish
- Ø Quality roof rack, 1 lockable storage unit,
- Ø 1 net storage unit and 4 ISO modules
- Ø Sun visor on windscreen Windshield sun visor
- Ø With or without tachograph
- Ø Manual roof vent Insect screen on vent
- Ø Rubber floor mats
- Ø Pneumatic driver's seat with seat belt Two driver's armrests Seat belt indicator
- Ø Pneumatic passenger seat with seat belt
- Ø Fabric seat upholstery
- Ø Performance lower bed
- Ø Central storage under bed
- Ø Reading lamps on sideboard
- Ø Direct cabin lighting
- Ø Cabin lighting delay
- Ø Curtains around cabin area
- Ø Lights in bed area
- Ø Remote control in bed area 2 lockers under bed,
- Ø 2 lockers under bed, one of which is accessible from inside and outside
- Ø 2 coat hooks on the rear and one on the driver's side
- Ø Electrically operated windows
- Ø Electronically controlled air conditioning for very hot country
- Ø Cabin air filtration, washable filter
- Ø First aid kit
- Ø English language logbook
- Ø 2 loudspeakers
- Ø Timer (records engine running times)
- Ø 2 kg fire extinguisher in the cabin, accessible from inside and outside the cabin

• Steering wheel equipment

- Ø 4-spoke steering wheel with height and depth adjustment and cruise control
- Ø Easy Access steering column with 3-axis adjustment
- Ø Mono CD player with mp3/WMA compatibility
- Ø Dual tuners for immediate radio list update
- Ø Radio controls under the steering wheel Jack (3, 5) and USB inputs for MP3 player
- Ø Hands-free mobile phone interface (Bluetooth technology),
- Ø audio streaming,
- Ø steering wheel controls,
- Ø microphone in roof rack,
- Ø audio from vehicle speakers Information on main display

Ø

Instrument panel:

- Ø Minimum 7" HD color display
- Ø 12V + 24V power sockets on instrument panel, for accessories Central locking with
- Ø Remote central locking
- Ø Speed control and limiter configurable

0

• ELECTRONICS EQUIPMENT

Display in English and French Additional language (Spanish)

OBD socket in cabin for data extraction and vehicle diagnostics

Fleet management interface FMS Gateway 3.0 4G telematic gateway

including antenna and allowing subscription to Optifleet services (Map, Chek, Drive)

Rear view camera

Reverse buzzer

• ELECTRICAL EQUIPMENT

Battery capacity 185 Ah

Batteries with level control

Manual battery switch

Alternator 120A

Front & rear lights system (EEC standard)

• CHASSIS / FRAME

Frame protection paint color mineral grey

Chassis reinforcement from the rear of the engine to the rear of the chassis

Standard overhang, pre-drilled for bodybuilder

Removable reinforced front tow bar

Without rear underrun protection

Transmission crossmember Medium

Towing crossmember for towing hook G150 (100 x 160 mm attachment)

Double cartridge air filtration for dusty atmosphere

2 wheel chocks

Wheel chock in front of the axle

Vertical exhaust outlet with heat shield

• BUMPERS - STEPS AND LIGHTING

Metal sheet bumper with headlamp grilles

Retractable windscreen access steps in radiator grille and under bumper

Access to driver's compartment via 4 steps 1st flexible steps in composite material

Step lighting

Electric headlamp adjustment device CEE lighting

Pre-disposal of headlamp ramp on front panel

Black fog lamp trims

Pre-disposal of rotating lights

SUSPENSION

Front suspension:

3-leaf reinforced parabolic front springs

Stabilizer bar

Rear suspension:

11-leaf elliptical suspension

Stabilizer bar

FUEL TANK

Steel main tank approx. 505L

Steel additional tank approx. 255L

Large capacity decanter prefilter reinforced on frame.

STANDARD EQUIPMENT

On-board kit

Tyre pressure gauge Inflator extension

Jack 20t

Safety waistcoat

Warning triangle

Rear warning buzzer

Windscreen washer tank capacity 8.8I

BODYWARE

Flexible body mount with springs

Body corbels (front only)

Orange LED parking lights with reflector

Interface for body builder connections and BBM (Body Builder Module)

Service

Optifleet Check monthly: technical data reports for monitoring consumption per vehicle and per driver, activation of the service on request for a monthly fee

Optifieet Drive monthly: monitoring of activity times and remote downloading of data from the driver card and the tachograph memory, activation of the service on request for a

monthly fee Optifleet Map monthly: vehicle geolocation, geofences and route analysis Activation of the service on request for a monthly subscription fee
