Surface area of the DRC in comparison with the Middle East

ICRC

DEMOCRATIC REPUBLIC OF THE CONGO

ICRC ACTIVITIES FROM JANUARY TO JUNE 2022

The International Committee of the Red Cross (ICRC) in the Democratic Republic of the Congo promotes respect for international humanitarian law and helps people affected by conflict and violence to become self-sufficient, often in cooperation with the Red Cross Society of the Democratic Republic of the Congo. We also work to improve water supply and sanitation facilities, reunite separated family members and strengthen the provision of health care for sick and wounded people, and victims of sexual violence.

89 693

PROTECTION

detainees benefited from our Restoring Family Links services and improvements to the material conditions of detention in facilities we visited.

293 843

ECONOMIC SECURITY

people received food, cash assistance, vouchers, household items or agricultural support.

2 213 658

IHL*

members of the armed and security forces, armed groups and members of civil society received information on international humanitarian law and humanitarian principles, either directly or through the media (estimate).

*International Humanitarian Law

2 017

COOPERATION WITH THE DRC RED CROSS

wounded people were treated and human remains were buried with dignity by first-aiders.

290 083

HEALTH

people received health-care services – including surgery for weapon wounds, psychosocial support, physical rehabilitation, and nutritional and medical assistance – in health centers, hospitals and prison dispensaries.

956 708

WATER

people benefited from access to water or improvements to water-supply facilities in urban and rural areas.
