Come map with us! We are mappers who will use your contribution for humanitarian efforts.
We will provide map content to support Water and Habitat initiatives of the ICRC (International Committee of the Red Cross). For more information, please see :
https://www.icrc.org/en/what-we-do/water-habitat

Step 1.
Remote volunteers trace satellite imagery into OpenStreetMap

Step 2.
Community volunteers add local detail such as neighborhoods, street names, and evacuation centers

Step 3.
Humanitarian organizations use mapped information to plan risk reduction and disaster response activities that save lives

What is it?

A mapathon is an event that allow everyone to map the world and learn how to map in OpenStreetMap, the free and opensource geodatabase of the world!
The aim of the Missing Maps Project is to map the most crisis-prone parts of the developing world. With your help we can directly improve the lives of some of the planet's most vulnerable people. This is exactly what we will be doing during this mapathon!

Learn more about Missing Maps (http://www.missingmaps.org/)

What do I need?

Just a laptop (you must bring your own with you), a mouse and enthusiasm (mouse isn't absolutely necessary but makes the mapping A LOT faster).

Details

Please register here (https://www.eventbrite.fr/e/billets-mapathon-missing-maps-humanitarium-geneva-feb-2017-30890057995)

Date: Thursday, February 2, 2017

Time: 18:30 - 21:30 CET
Location:

At the ICRC in Geneva, at the Humanitarium (International Museum of the Red Cross, at the right)
Geneva, 17 avenue de la paix.

Public transport : Bus 8 or F, stop over "Appia" from the Train Station

For more information : https://www.icrc.org/en/humanitarium

Schedule

18:30: Welcome
18:45: Mapping training
19:00: Start mapping!
We'll have a few short breaks for presentations about OpenStreetMap mapping and how ICRC and **other humanitarians**
will use the data we create.
21:30: End of the mapathon

We will provide food and beverages for participation.
