

Facts and figures 2025

770

documents

attesting to the detention of former prisoners of war or individuals who were detained during past conflicts and met by the ICRC while in detention were provided in partnership with the Iraqi Red Crescent Society (IRCS).

932 individuals benefited from Health Care in Danger-focused group discussions ran by IRCS in Mosul and Nasiriya.

19,065 people gained improved access to water, electricity, and community services through infrastructure upgrades and rehabilitation projects in collaboration with the IRCS.

35 participants from the IRCS engaged in a learning workshop and training on safe messaging approaches related to sexual and gender-based violence (SGBV).

19,679

people

contacted the ICRC's Community Contact Centre to inquire about ICRC services or share concerns.

794

families

of missing persons benefited from legal, psychosocial, and material support. A total of **137** civil documents were issued to relatives of missing persons, while **263** benefitted from legal advice.

183 sets of human remains from the Iraq-Iran War were exchanged under the auspices of the ICRC.

568

personnel

from state agencies attended **40** training sessions on best practices on the search for and identification of missing persons, as well as for protecting and preserving the dignity of the deceased and burial places.

4 forensic facilities received infrastructural support, along with specialized equipment donated to **3** state institutions to support their actions in the search for missing persons.

23,675

detainees

gained improved access to health care through technical support and medical equipment donations in **6** places of detention (PoDs).

37,000 detainees in **18** PoDs have seen their living conditions enhanced through the distribution of hygiene items, clothing and books in coordination with the prison authorities.

6 sensitization sessions on health promotion were delivered to social workers working inside PoDs.

7,188 detainees were followed up individually during **61** visits in **28** PoDs.

Through our visits and regular dialogue with the detaining authorities, we aim to support the authorities' efforts in improving the treatment of detainees and the conditions under which they are held.

11,450 detainees in **6** PoDs have benefited from infrastructure improvements to living spaces and designated open-air areas, alongside the promotion of design standards for more humane prison environments.

9,149
people

including families of missing persons and persons with physical disabilities, strengthened their livelihoods through cash assistance for agriculture, livestock activities, small businesses, and other livelihood projects. This support included training on business skills, good agricultural practices, and climate-friendly farming methods.

11,642
people

were trained in sessions on risk awareness and safer behaviour, and **558** units of weapon contamination equipment were donated to the national mine action agencies, Civil Defense, and clearance actors to support safe clearance operations.

1,273
people

from **4** governorates benefitted from Mental Health and Psychosocial Support (MHPSS) activities.

This figure reflects those who benefitted from focused psychosocial support sessions, trainings on the provision of mental health, and other MHPSS activities.

5,692
red cross
messages

were exchanged between separated family members, mostly between detainees and their relatives.

Families submitted requests to locate **1,289** missing relatives.

The fate and whereabouts of **517** missing persons were clarified.

13,292
persons

with physical disabilities received physical rehabilitation services, including **1,065** prostheses, **6,291** orthoses, **319** adaptive wheelchairs, and **26,091** physiotherapy sessions.

The ICRC Erbil Physical Rehabilitation Centre provided services to **7,750** persons with physical disabilities. Among them, **112** detainees received services and assistive devices.

1,033
participants

benefitted from more than **111** activities, including **29** trainings on international humanitarian law (IHL) and international human rights law (IHRL).

2,310
people

attended emergency response awareness sessions organized by the IRCS in Mosul, Nasiriya, Erbil, Ninawa, and Baghdad.

61 ambulance responders and **85 deminers** were trained in emergency response and basic first aid to strengthen lifesaving skills at the community level in Baghdad and Mosul.

19 first responders, including IRCS volunteers and ICRC staff, completed advanced trauma response training.

183 healthcare professionals received training in triage, patient flow, and resuscitation to improve emergency care.

80 IRCS volunteers were trained as part of Community Emergency Response Teams in Baghdad, Erbil, and Mosul.

350 medical professionals and 64 expert speakers were brought together in the ICRC co-organized Iraq's 1st International Conference on Emergency Care, to improve the country's emergency health system.
