DROUGHT EMERGENCY RESPONSE IN SOMALIA
JANUARY - APRIL 2017

The humanitarian situation in Somalia is on the verge of catastrophe, and concern is growing that the trajectory is worryingly similar to Somalia’s 2011 famine disaster, when an estimated 260,000 people died. Today, an estimated 6.2 million, more than half the country’s population, face acute food shortage and the number of severely malnourished children is on the rise. This desperate situation comes against a backdrop of protracted conflict that has disrupted livelihoods and vital services such as health and water. The International Committee of the Red Cross (ICRC) jointly with the Somali Red Crescent Society (SRCS) and its vast network of volunteers continue to help drought-affected communities across Somalia in areas prone to conflict that are difficult to access.

**RELIEF ACTIVITIES**

- **160,032** PERSONS received food rations of 50kg of rice, 20kg of beans and 10 litres of oil per household
- **45,264** PERSONS received essential household items (EHI)
