BACKGROUND & METHODOLOGY
BACKGROUND AND OBJECTIVE

Background

ICRC would like to conduct a study marking 10 years since the start of the Syrian conflict. This project should focus on Syrians aged 18-25 based across three countries; Syria, Lebanon and Germany.

Objective

To collect information from the young Syrians (18-25) in selected countries on the effects that the conflict has had on their day to day lives.
Target group: Young Syrians aged 18 to 25 currently living in Syria, Lebanon and Germany

Sample size: 800 in Syria; 400 in Lebanon and 200 in Germany

Sample type:
- Syria: sample representative of Syrian population 18-25 by gender and region, excluding governorates: Idleb, Al-Rakka, Deir-ez-Zor and Al-Quneitra based on random digital of landline phones
- Lebanon: quota sample in areas known to have high density of Syrians residing there based on estimated numbers of Syrian refugees
- Germany: sample reached based on the contacts provided by respondents in Syria and Lebanon

Data collection: mixed method
- Syria: Telephone interviews based
- Lebanon: Face to face interviews
- Germany: Telephone interviews

STUDY DESIGN OVERVIEW

MARKET
Syria, Lebanon, Germany

METHODOLOGY

RESPONDENT QUALIFICATION

DATA COLLECTION
Mixed method
- Syria: Telephone interviews based
- Lebanon: Face to face interviews
- Germany: Telephone interviews

TARGET GROUP: Young Syrians aged 18 to 25 currently living in Syria, Lebanon and Germany

SAMPLE SIZE:
- Syria: 800
- Lebanon: 400
- Germany: 200

SAMPLE TYPE:
- Syria: Sample representative of Syrian population 18-25 by gender and region, excluding governorates: Idleb, Al-Rakka, Deir-ez-Zor and Al-Quneitra based on random digital of landline phones
- Lebanon: Quota sample in areas known to have high density of Syrians residing there based on estimated numbers of Syrian refugees
- Germany: Sample reached based on the contacts provided by respondents in Syria and Lebanon

TIMING
23rd December 2020 – 20th January 2021

METHODOLOGICAL NOTE
The interviews were collected using different sampling approaches and data collection methods which could have influence on results. The country average presented in this report reflects the simple average of result for three countries where the survey was conducted. Results are weighted to have country representation with equal shares (N=200 per country) and have not been adjusted to the population size of each country. Therefore, country average is not intended to suggest a total result but the average result across three country settings.
EXECUTIVE SUMMARY

Personal experience of the conflict

The impact of conflict on young Syrians’ families and friendships has been devastating and tragical. Many lost their relatives or could not continue their education or were forced to leave their home:

- Nearly half of young Syrians in Syria (47%) and two in five Syrians in Lebanon (41%) and Germany (40%) have had a member of their immediate family or close friend killed.
- Two in five in Syria (41%), two in three in Lebanon (68%) and more than half in Germany (55%) lost contact with a close relative.
- More than half of young Syrians in Syria (51%) and Germany (51%) and over four in five in Lebanon (84%) were forced to leave their home.
- More than one in three (38%) young Syrians in Syria, almost half in Germany (49%) and over three in four in Lebanon (77%) had interrupted education.
- Many recounted interrupted plans, with approximately one in five young persons in Syria (22%), Lebanon (24%) and Germany (17%) reported having postponed their wedding because of the conflict.

Currently, young Syrians in all three countries still face many challenges related to their financial situation, education, opportunities to find adequate jobs and other everyday situations. Findings of this report further explores different aspects of their lives.

Financial situation

On average, across the three countries, more than half indicate salaried employment as the main source of income in the last year (53%). However, nearly two in ten (17%) have temporary employment as their main source of income or do not have any income (16%). In all three countries, more young women than men indicate that they do not have an income to sustain their household.

Amongst young Syrians in Syria, three in four (75%) live in households which struggled to meet their basic needs. This number is even higher in Lebanon, where nearly nine in ten (88%) indicated this, whereas in Germany just over half (54%) also indicated this. In Syria, the most common coping strategies include relying on less nutritious food (85% of those not being able to meet their basic needs), spending their savings (76%) and restricting food consumption (72%). In Lebanon, these strategies are accompanied with others, such as withdrawing children from school (60%).
EXECUTIVE SUMMARY

Educational status

Most young Syrians in Syria have been educated to secondary (56%) or university level (20%), however, more than one in three within this country have missed at least one year of education because of the Syrian conflict.  
• Even in Germany, where 70% young Syrians has completed secondary education and 20% university level, more than half (52%) lost at least one year of schooling due to the conflict.  
• However, the situation is most striking in Lebanon where four in five young Syrians have missed at least one year of schooling and where, currently, more then eight in ten (84%) has not finished secondary school. Of this, one in twenty (5%) are illiterate.  
The primary reason for missing some years of schooling was because the individual needed to flee their home. This is followed by school closure, or schools being damaged due to the conflict.

Employment status

Two in five young Syrians residing in Syria (40%) are currently full-time students and therefore not working for wages. More than one in four (28%) are working full or part time or in temporarily jobs. However, the same number is currently not working or is looking for a job (28%).  
• On the other hand, in Lebanon, young Syrians are not studying. Almost half of them are working (47%) with another half being unemployed or inactive (50%).  
• The situation looks better among young Syrians in Germany where most of them are full time students (45%) or are part of the working population (46%) with only a few being unemployed (7%).

Gender differences by employment status can be seen in all three country settings. However, the patterns are different:  
• In Syria, there are more women than men who are unemployed or not working (53% women compared to 13% men). Similarly, in Lebanon, a large majority of young women are working at home as housewives/househusbands (59% women compared to 2% men).  
• Conversely, young Syrian women living in Germany are primarily students (60% women compared to 29% men) whereas young Syrian men in Germany are predominantly working, either part time or full time (25% women compared to 64% men).
EXECUTIVE SUMMARY

Access to services and the main challenges

Currently, access and use of different services among young Syrians vary significantly depending on their country of residence and type of services trying to be accessed. Thus, in Syria, four in five young persons (80%) indicated that they have access to education, however only one in five indicate this for employment assistance (21%) or cash assistance (23%) too. Situation in Lebanon is even worse, where only half (53%) have access to education and less than half of them use these services (45%); this is far less than persons in Syria (94%).

In Syria, electricity is indicated by nearly seven in ten young people as the top resource they currently have most difficulty accessing. On the other hand, more than half of Syrians in Lebanon lack food and financial means. At the same time, it seems that Syrians in Germany are the least deprived of these three groups - six in ten indicated that there are no resources which they currently lack, compared to none in Lebanon and only one in five in Syria.

Findings further indicate that Syrians in Germany have better access to all resources and services compared to Syrians living in Syria and Lebanon and also use them personally to a much higher extent. Furthermore, young Syrians in Syria and Lebanon much more often than Syrians in Germany highlighted that they wanted to access to a variety of resources and services but were not able to.

In all three countries, the most common aspect people need help with is information and access to employment. In Germany, however, a significant majority (56%) indicate that they need help accessing psychological support while in Lebanon humanitarian support is indicated by almost half (49%).

Young people in Syria indicate finding an adequate job (27%), having enough money to live (21%), and getting a good education (16%) are their greatest challenges they are currently facing. Over half of young Syrians in Lebanon (54%) indicate not having enough money to live whereas one in four young Syrians in Germany indicate language difficulties and not being able to get a good education.
EXECUTIVE SUMMARY

Everyday life

Over seven in ten young Syrians residing in Syria are currently single, 15% are in relationship and 12% are married. While the situation is similar in Germany, in Lebanon more than half young Syrians is already married (51%). Unfortunately, nearly three out of ten young persons in Syria have lost touch with their friends from before the conflict. Those who have been able to keep in touch do so mostly via social media. In Lebanon, sadly, seven out of ten lost contact. They also use social media less frequently for staying in contact than Syrians in other two countries, relaying more on telephone contact.

In the past twelve months, the majority of young people in Syria have experienced anxiety (73%), distress (69%), frustration (62%), depression (58%) and sleep disorders (54%). These emotional changes occur even more frequently among young Syrians in Lebanon.

Hopes for the future

Despite the many challenges they have faced, over seven in ten (73%) young Syrians in Syria, nearly nine in ten (87%) in Germany, and half (50%) of those living in Lebanon are optimistic about their future. They are hoping to find stability, to be ‘happy’ in general and to have a family. These hopes reflect what they consider to bring them happiness, so, reflecting on this, almost four in five young Syrians in Syria name safety and security (78%), and more then seven in ten family and friends (73%) as the greatest sources of happiness.

Further, over nine in ten (94%) in Germany, and seven in ten (71%) in Lebanon feel accepted in their new country of residence. However, in both countries, the majority of respondents continue to consider Syria their home (80% in Lebanon and 60% in Germany). While an overwhelming majority of young Syrians in Germany project to stay there for another five years (80%), those in Lebanon are almost equally divided between returning to Syria (30%), remaining in the region (26%), or going to Europe (33%).

Finally, many young Syrians continue to feel that their experiences are not well understood by the wider public. They wish more people knew about the negative experiences caused by the conflict in Syria (51%) and how they felt through these years (33%).
KEY FINDINGS
PERSONAL EXPERIENCE IN SYRIA AND AFTER
WHEN ASKED ABOUT PERSONAL EXPERIENCES DURING THE CONFLICT, MANY YOUNG SYRIANS INDICATED A VARIETY OF DIFFERENT TRAGIC EXPERIENCES. ON AVERAGE, ACROSS THREE COUNTRIES, MOST MENTIONED ARE LACK OF ACCESS TO BASIC NECESSITIES, BEING FORCED TO LEAVE HOME AND INTERRUPTED EDUCATION.

E2. I’m going to ask you about your personal experiences during the conflict, [ADD FOR LEBANON AND GERMANY: while you still were in Syria]. Please tell me whether any of the following things happened to you personally or did not happen as a consequence of the conflict in Syria? For each one, please indicate whether it happened or did not happen to you.

BY GENDER, MORE YOUNG MEN THAN WOMEN INDICATED THAT THEY WERE WOUNDED OR IMPRISONED DURING THE CONFLICT AND THAT THEY HAD TO POSTPONE THEIR MARRIAGE.

E2. I’m going to ask you about your personal experiences during the conflict, [ADD FOR LEBANON AND GERMANY: while you still were in Syria]. Please tell me whether any of the following things happened to you personally or did not happen as a consequence of the conflict in Syria? For each one, please indicate whether it happened or did not happen to you.

Base Syria N=800 Lebanon N=400 Germany N=200
ACCESS TO RESOURCES AND SERVICES
CURRENTLY, FOUR IN FIVE YOUNG PERSONS IN SYRIA INDICATED THAT THEY HAVE ACCESS TO EDUCATION, HOWEVER, ONLY ONE IN FIVE INDICATE THAT FOR EMPLOYMENT OR CASH ASSISTANCE

The situation in Lebanon is even worse, where only half indicate they have access to education and only 13% that they have access to employment assistance. Across the board, persons residing in Germany have better access to all resources and services compared to Syria and Lebanon.

S1. IF GERMANY OR LEBANON: To the best of your knowledge, are the following resources and services available to Syrians in [COUNTRY]?

IF SYRIA: To the best of your knowledge, are the following resources and services available to people living in Syria

- **Syria:**
  - Education: 80%
  - Sanitation (access to facilities): 68%
  - Safe access to water: 65%
  - Healthcare: 63%
  - Transportation: 58%
  - Food-based aid: 51%
  - Psychological and psycho-social support services: 31%
  - Legal services and aid: 27%
  - Cash assistance: 23%
  - Employment assistance: 21%

- **Lebanon:**
  - Education: 53%
  - Sanitation (access to facilities): 74%
  - Safe access to water: 47%
  - Healthcare: 36%
  - Transportation: 64%
  - Food-based aid: 25%
  - Psychological and psycho-social support services: 25%
  - Legal services and aid: 31%
  - Cash assistance: 42%
  - Employment assistance: 13%

- **Germany:**
  - Education: 98%
  - Sanitation (access to facilities): 99%
  - Safe access to water: 100%
  - Healthcare: 98%
  - Transportation: 99%
  - Food-based aid: 91%
  - Psychological and psycho-social support services: 91%
  - Legal services and aid: 86%
  - Cash assistance: 96%
  - Employment assistance: 35%

Base Syria N=800 Lebanon N=400 Germany N=200
Among those young Syrians in Syria who indicated that certain resources and services are available to them, legal, employment assistance and psychological support services are the least used.

Even among people who indicated that educational services are available to Syrians in their country, young Syrians living in Lebanon have personally used these services (45%) far less than persons in Syria (94%) and Germany (94%). Findings indicate that persons residing in Germany not only have better access to all resources and services compared to Syrians living in Syria and Lebanon, but also use them personally to much higher extent.

**S2. Which of the following resources and services, if any, have you accessed in [COUNTRY]? I am speaking specifically here about services that you, yourself, have used.**

Base: Country average reflects the simple average for three countries. Results are weighted to have country representation with equal shares
THE MOST COMMON REASON FOR YOUNG SYRIANS RESIDING IN SYRIA TO MISS SOME YEARS OF SCHOOLING IS DUE TO THEM NEEDING TO FLEE THEIR AREA

More persons residing in Lebanon indicate that they missed some years of schooling because their school was damaged or closed than persons residing in Syria and Germany.

**Syria:**
- I had to flee and couldn't access school anymore: 38%
- My school was closed: 11%
- I needed to work instead: 7%
- School was too expensive: 7%
- My school was destroyed/damaged in the conflict: 4%
- School is too far from home: 4%
- I needed to support other family members at home: 2%
- I faced language barriers: 2%
- I was sick/wounded, so could not attend school: 1%
- There was no teacher anymore: 1%
- We didn't know how to register: 1%
- Other: 22%

**Lebanon:**
- I had to flee and couldn't access school anymore: 22%
- My school was closed: 23%
- I needed to work instead: 5%
- School was too expensive: 7%
- My school was destroyed/damaged in the conflict: 4%
- School is too far from home: 7%
- I needed to support other family members at home: 4%
- I faced language barriers: 1%
- I was sick/wounded, so could not attend school: 1%
- There was no teacher anymore: 4%
- We didn't know how to register: 3%
- Other: 22%

**Germany:**

---

IN SYRIA, THERE ARE MORE WOMEN THAN MEN WHO ARE UNEMPLOYED OR NOT WORKING OUTSIDE OF HOME

One third of young Syrian men living in Lebanon are working full time compared to less than one in ten young Syrian women - a large majority of these young women (59%) are not working outside of the home. Conversely, young Syrian women living in Germany are primarily students whereas young Syrian men in Germany are predominantly working, either part time or full time.
FINANCIAL SITUATION AND MAIN CHALLENGES
ON AVERAGE, ACROSS THE THREE COUNTRIES, MORE THAN HALF INDICATE SALARIED EMPLOYMENT AS THE MAIN SOURCE OF INCOME IN THE LAST YEAR.

However, nearly two in ten (17%) indicated that they are in temporary employment or currently do not have any income (16%)

A8. In the last 12 months, what were the three main sources of cash/income used to sustain your household? - Total

- Salaried employment: 53%
- Temporary / contracted employment: 17%
- No Income: 16%
- Cash from humanitarian organizations: 11%
- Non-agricultural casual labor: 7%
- Agricultural waged labor: 6%
- Savings: 3%
- Formal credits (from banks): 3%
- Money sent from friends and family who are living abroad: 3%
- Retirement pension: 2%
- Sale of assets: 2%
- Sale of crops: 2%
- Gifts from local family/relatives: 1%
- Sale of food aid (food vouchers or parcels): 1%
- Informal credits (from shops, friends, hosts): 1%
- Sale of non-food assistance: 1%
- Sale of livestock and animal products: 1%
- Other NET: 7%
- Don't know: 1%
- Refused: 1%

Base: Country average reflects the simple average for three countries. Results are weighted to have country representation with equal shares.
THERE ARE MORE PEOPLE RESIDING IN SYRIA WITHOUT A SOURCE OF INCOME THAN THERE IS IN LEBANON AND GERMANY

The main source of income for the significant majority of people residing in Lebanon is through salaried employment (75%). This figure is much lower in Syria (47%) and Germany (38%).

A8. In the last 12 months, what were the three main sources of cash/income used to sustain your household?

- 35% Yes - my household has experienced
- 10% Yes, both myself and my household have experienced
- 10% No
- 10% Don't know

Base: Syria N=800, Lebanon N=400 Germany N=200
THE MOST COMMON STRATEGIES FOR YOUNG SYRIANS IN SYRIA TO COPE WHEN UNABLE TO MEET THEIR DAILY NEEDS INCLUDE RELYING ON LESS NUTRITIOUS FOOD, SPENDING THEIR SAVINGS AND RESTRICTING FOOD CONSUMPTION

Over nine in ten young Syrians residing in Lebanon who struggled to meet their daily needs have rationed their food consumption in order to meet their other basic needs; this is higher than those living in Syria as well as Germany. A further six in ten young Syrians in Lebanon have also withdrawn children within their household from school in order to cope with meeting their basic needs.

A10. What strategies have you or your household used to cope with not being able to meet your basic needs?
